INTRODUCTION

The International Conference on Sustainable Engineering (ICSE) will be organized by Applied Science Private University (Faculty of Engineering and Technology) and will be held on 20-21 September 2023. This conference aims to bring together leading academic scientists, researchers, and research scholars to exchange and share their experiences and research results on all aspects of Sustainable Engineering.

It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns, as well as practical challenges encountered, and solutions adopted in the fields of Sustainable Engineering.

Most accepted and presented papers will be published in one of the following scopus indexed journals:

Journal of Ecological Engineering (JEE) - (Scopus)

Advances in Science and Technology Research Journal (ASTRJ) - (Scopus)

Ecological Engineering and Environmental Technology (EEET) - (Scopus)

International Journal of Thermal and Environmental Engineering

CONFERENCE AIMS

This conference is aimed to bring together experts from various industries & backgrounds to discuss innovative approaches to sustainable engineering practices.

CONFERENCE TOPICS

Sustainable Energy
Sustainable Management
Sustainable Material
Sustainable Manufactory

Sustainable Technology
Sustainable Architecture
Sustainable Artificial Intelligence
Resilient Cities and Urban Development
